Patent Search/Analysis

- **Fast and accurate search/analysis**
  - We have specialists in various fields so that we can respond flexibly to our clients' demands.
  - We will analyze/evaluate the results and you can use them to make administrative decisions or plan IP strategies.
- **Patent content search**
  - We offer the following search services.
  - Delivery, prices, search methods, etc. depend on the client's needs, and thus consultation is necessary before a quote can be given.

1. Prior art search	Check for prior art literature before filing or requesting examination
2. Infringement avoidance search	See if there are any patents infringed by a product you have developed before starting production or sales
3. Patent invalidation search	Find documents that can be used to invalidate a patent that's causing you problems
4. Technology development patent search	Collect patent publications in the R&D phase and investigate trends in the relevant field and filing statuses of other companies
